DataDog  
Firehose  
Prometheus  
Kibana  
ElasticSearch  
AirBrake

### Not exactly every day

Go  
Terraform  
PubSub  
Node  
Nginx  
Firebase  
Redis  
HTTP and gRPC and proto  
D3  
SVG

## Software Engineer Experience

**EverQuote, Cambridge, MA** - *Software engineer* 11/2015 - PRESENT

Started as a front-end designer and developer for over a year, where I deepened my knowledge on accessibility and usability for front-end apps and experienced Field Research in Product design/research. I then transitioned to full-stack Ruby on Rails app with parentheses in goLang here and there. I work in a Scrum/Agile environment where I take ownership and responsibility on all the projects I work on.

## Education

**General Assembly, Boston** - *Web Development Immersive Course* 04/2015-07/2015

**University of Genoa, Italy** - *BA Foreign Languages for Business and Travel (English, Swedish)*  
2006-2010
