Work Experience

Software Engineer, EverQuote, Cambridge, MA (11/2015 - present)

Started as front-end designer and developer for over a year, where I deepened my knowledge on accessibility and usability for front-end apps and experienced Field Research in Product design/research. I then transitioned to full-stack Ruby on Rails app with parenthesis in golang here and there. I work in a Scrum/Agile environment where I try to take ownership and responsibility on all the projects I work on.

Education

General Assembly, Web Development Immersive course, Boston, MA (04/2015-07/2015)

BA, Foreign Languages (English, Swedish) University of Genoa, Italy (2006-2010)

Skills

Developing:

Daily use or almost:

Languages / Frameworks:

Ruby on Rails / rvm / bundler

HTML / HAML

CSS / SCSS

JavaScript/jQuery

Foundation/Bootstrap/Materialize

Go (golang)

create and consume RESTful APIs

DB:

Postgres, SQL

Sidekiq

Redis

Mongo

Testing:

BDD in Rspec / Capybara / Selenium

Deploy and Ops:

Capistrano

AWS

Docker

CircleCI

Google Cloud Platform and Kubernetes

Heroku

Vault

Monitoring, metrics and logs:

Datadog

Firehose

Prometheus

Elastic Search

Kibana

Airbrake

12 Factor / 3 Factor apps

Misc:

*nix platforms

Git / Github

Jira / Confluence

JSON

D3

SVG

Network: HTTP and gRPC

Web Audio API

Vim

Have worked with / not every day:

Languages / Frameworks:

GraphQL

Pubsub

Node / npm

Sinatra

Nginx

Firebase
